Horse's Name: \_\_\_\_\_ Age: \_\_\_\_\_

Breed: \_\_\_\_\_ Sex: \_\_\_\_\_ Height: \_\_\_\_\_

### **Gypsie Lodge Equestrian Centre** **CONDITIONS OF SERVICE- Fresh, Chilled or Frozen Semen** **For mares being bred off property**

1. Service fee is payable prior to service or delivery of semen.
2. Service fees are non refundable.
3. A \$250.00 booking fee is payable on ordering of semen.
4. Semen delivered is to be inseminated by a registered Veterinarian, to the mare detailed in the contract above. Any variations to this to be approved by the stallion owner PRIOR to insemination.
5. Any unused frozen semen straws to be returned to the stud post positive pregnancy test and remain the property of the Stallion Owner.
6. In the case that the stallion should be injured to prevent breeding, die or be sold, the mare owner is entitled to a full refund (excluding the handling fees, booking fees and agistment costs already incurred by the mare).

6. Mare owners are advised that a free return does not guarantee that a live foal will be born by the mare being bred. This term entitles the mare owner to a return breeding for the same mare to the same stallion, the following year. This applies only in the case that the mare should a) fail to conceive, b) abort the foetus or c) the foal die within 24hrs of birth. A veterinary certificate must be supplied within 7 days of vet examination.

7. Should both Mare Owner and Stallion Owner agree that said mare is not suitable, another mare may be substituted. The Free Return is valid for the following season only, and is **not** transferable.

8. Should the mare owner fail to have a veterinarian examine the pregnancy for twins or abortions at or before twenty one days (21) after insemination, and between forty (40) and sixty (60) days after conception, the free return will be void. It is the responsibility of the mare owner to assist in maintaining the pregnancy with regular veterinary checks. Gypsie Lodge Equestrian Centre and Leasa Stephen will not honour Free Returns when the mare owner has neglected to undertake appropriate examinations.

9. Leasa Stephen and Gypsie Lodge must be notified in writing within seven (7) days of the results of the pregnancy test as outlined above (point 7) or the free return will be void.

10. Gypsie Lodge and Leasa Stephen will not honour Free Returns when the mare loses a pregnancy due to poor health caused from owner's neglect. Appropriate feed, water and shelter should be available to the pregnant mare at all times.

11. In the event of abortion or death of foal prior to 24hrs after birth, the Handling Fee and collection fees etc (\$150 for 09/10 season-subject to change) will be charged again upon exercising the Free Return the following breeding season.

12. The breeding season consists of late October to end of February each year. Mares must be bred within this period unless agreed to by Stallion Owner. Frozen semen by arrangement outside this time.

13. The Stud exercises the right to refuse any mare for breeding for whatever reasons.

14. Mare owners are required to nominate the inseminating vet prior to delivery of the semen.

15. Mare owners are required to have their mares assessed for breeding soundness before being inseminated.

16. It is mandatory that mare owners have their mare scanned 14-21 days after insemination to determine their pregnancy status, and again at between 40-60 days to confirm pregnancy.

18. All accounts are to be paid in full before the delivery of semen. Service certificates cannot be issued without appropriate registration papers or proof of identity. All accounts must be paid in full prior to service certificates being issued.

19. List any extra conditions/details here to be signed by both parties:
